VUEPOINT™ III 10.4

**Legacy Rugged LCD Touch Terminal**

The VuePoint III is the third incarnation of the serial touch screen terminal General Digital first introduced to the world in 1977.

A true drop-in replacement for earlier versions of VuePoint, it responds instantly to the touch of a finger or stylus. Simple, menu-prompted, touch-interactive operation makes even the untrained operator instantly productive, and further enhances the trained operator's capabilities.

It also has a large memory capacity with 1 GB of memory and an onboard 4 GB SSD.

The versatile VuePoint III allows the user to select from 32K foreground and background colors

FEATURES

» 10.4″ LCD, 1024 x 768 pixel screen

   › Emulates original VuePoint 12 rows and 40 columns

» Intel Atom N455 1.6 GHz processor

» 1 GB DDR3 SO-DIMM with onboard 4 GB SSD

» Resistive touch screen

» Custom I/O interface

» Copper heat sink with extended temperature screening

» Enclosure constructed from lightweight aluminum

OPTIONS

» VGA video input

» Aluminum and stainless steel custom enclosures and rack or panel mount bezels

» Expandable pages beyond the standard 128

» Embedded or separate power supplies of various voltages

» Custom software and firmware for unique applications
