SLIMLINE LITE II™ KVM

Rack Drawer Flip-up LCD Monitor/Keyboard/Trackball with 4-port KVM Switch

A popular option for General Digital's SlimLine Lite II Series of rack drawer flip-up monitor/keyboards is an integrated 4-port KVM switch. This gives the end user the ability to connect to—and control—up to four different computers, using just one device.

The SlimLine Lite II is a robust monitor/keyboard, intended for use in military and industrial applications, either in a rack-mounted or desktop configuration.

The 4-port KVM Switch integrates perfectly on the rear mounting bracket beside the optional 1U power supply

FEATURES

» Display sizes from 15.0″ to 20.1″ with resolutions up to 1920 x 1080

» Four KVM switch ports allows for control of multiple computers from a single device

» VGA, DVI-D, Composite, HDMI, DisplayPort and other video inputs available

» Low profile occupies only 2U (3.50″) of rack space

» Rugged aluminum construction with durable finish is designed to be in compliance with MIL-DTL-901E, MIL-STD-810, MIL-STD-167 and more
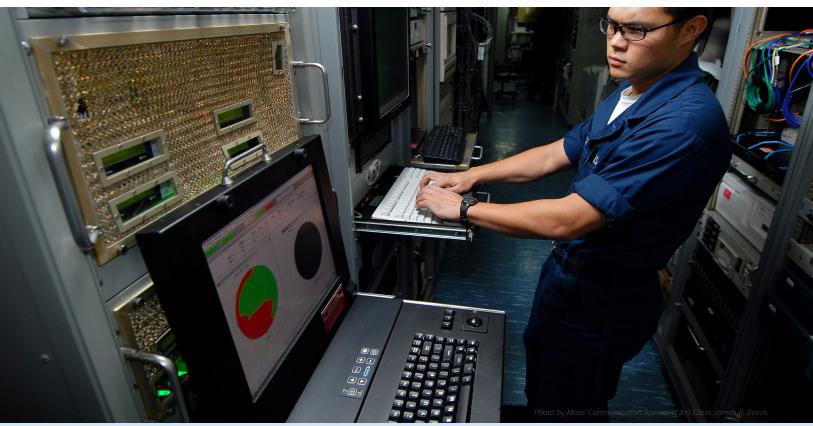

» Designed, manufactured and serviced in the USA

OPTIONS

» Compliance with radiated and conducted EMI requirements (e.g., MIL-STD-461, TEMPEST)

» Sunlight readable and MIL-STD-3009 NVIS-compatible display backlights

» Keyboard/trackball options: military and industrial grades, environmental sealing, colored keycaps and backlights, custom firmware

» Solid-bearing, locking slides for mounting directly to EIA-310 RETMA 19″ racks

» Power supplies, DC-DC converters

» Extended warranties
